

Head Clean Procedure for Ricoh Printer

1. After the nozzle check has printed, check the option to perform a head clean and click **'Next'**.

2. If the nozzle check is not complete on the Magenta or Yellow test pattern check **'Print-head 1'** and click **'Next'**.
If the nozzle check is not complete on the Black or Cyan test pattern check **'Print-head 2'** and click **'Next'**.
If the nozzle check is not complete on one or more colours of **'Print-head 1'** and one or more colours of **'Print-head 2'**, check both print-heads and click **'Next'**.

3. Click **'Next'** and the cleaning will commence.
