

DM525 – 25" SHEARS PART NUMBER: 700-274

Bench top shears suitable for cutting printed circuit board laminates, thin metal sheet and aluminium (1.5/2.0mm) or plastic labels / front panel materials. On lowering the operating handle, a spring loaded clamp is activated which holds the material securely during cutting, thus enabling cuts to be made with a minimum of effort. These shears are composed of an epoxy powder coated cast aluminium frame fitted with hardened and ground steel blades. The DM525 has a 25" cutting capacity. Imperial and metric edge scales and fully adjustable back stop for batch work.

The backstop should be assembled as shown below
