**Sublimation printing** is a relatively new but fast growing system in both industry and education. In essence it allows you to reproduce four colour images in the surface of various different materials.

**WHAT IS DYE SUBLIMATION PRINTING?**

‘Sublimation’ is defined as turning a solid into a gas and back into a solid without any liquid stage. This allows the application of sublimation inks into a materials surface using a Heat Press to provide the required combination of heat, time, and pressure. This combination causes the inks to be converted from a solid to a gaseous state enabling them to penetrate the surface so that a permanent, full colour image is formed. The colour penetrates the material giving a result which is long lasting, colourful and resistant to scratching. Dye Sublimation should not be confused with other dry laser processes that transfer the images to the surface of materials making them easy to scratch off. True Dye Sublimation uses wet ink technology.

**WHAT ARE DYE SUBLIMATION INKS?**

Dye Sublimation Inks are in essence a formulation of special coloured dyes suspended in liquids that can be passed through a digital ink jet printer.

**WHAT MATERIALS CAN BE SUBLIMATION PRINTED?**

Suitable materials are man made polymers such as Polyester and PVC. These can be ‘hard’ such as a polyester coated sheet of aluminium or ‘soft’ such as polycotton textiles. During the heat press stage the pores of these polymers open to allow sublimation ink (now in a gaseous state) to enter. As the temperature drops the pores close leaving the now solid ink image as part of the polymer. Printable materials fall into two distinctive categories:

**SUBLIMATION SHEET MATERIALS**

These are varied but include polymer coated aluminium, PVC sheets, plastic sheets, fibreglass, polycarbonates, Foamex board, PVC and other plastics for vacuum forming, and textiles containing more than 50% polyester.

**MINI ENTERPRISE or PROMOTIONAL PRODUCTS**

Many of these items are listed in this brochure. They include Sublimation clocks, jigsaws, bags, phone covers, door hangings, memo boards, wallets, water bottles, key rings, sunpaddles, ceramic tiles, ceramic mugs, business cards, coasters, place mats, 6 x cards, mouse mats, tee and polo shirts and glasses.

All Sublimation materials tend to be white to enable true accurate colour reproduction. If you added an image to a coloured base the image would be distorted by the base sheet colour.

**WHAT MATERIALS CANNOT BE SUBLIMATION PRINTED?**

As Dye Sublimation is always performed on a polyester, polymer or polymer coated item, materials such as 100% cotton are not suitable as the natural fibres have no pores to open to accept the image. Cotton can be sublimated but the image will fade with a few washes making a 50% polyester 50% cotton weave a required minimum.

**HOW DO YOU PRINT AN ITEM?**

This is a digital printing system so you firstly select or create your colour image on a computer. Any picture from any software package will do - as long as it will print on a piece of paper it will be fine! Free ICC profiles or a PowerDriver is supplied to automatically match colours and perform tasks such as automatic mirroring. The image is normally sized so that it is slightly larger than the selected material so it can ‘bleed’ over the edge leaving no white showing. The image is printed on sublimation paper ‘mirror image’ and is then laid onto the sublimation material and secured with a little ‘heat tape’. The two are then placed in a Heat Press for typically 1-2 minutes at a temperature between 160°- 200°C. The exact time and temperature depends on the material being used. At the end of the cycle the paper is removed to reveal a bright vibrant scratch resistant coloured image.

**WHAT EQUIPMENT IS NEEDED FOR SUBLIMATION PRINTING?**

- Ricoh Printer
- Sublimation Paper
- Dye Sublimation High Capacity Ink cartridges for the Ricoh printer
- Heat Press for flat material
- Mug Press for Durham mugs

**PRINTERS**

Ricoh is now the chosen printer for sublimation. The special high capacity inks mean no ‘bulk feed ink system’ is needed. The new Ricoh printers offered by Mega have very high print speeds, a self cleaning print head and high ink dispersion rates to prevent ink blockages. They use print head technology with virtually no heat being generated which means the ink does not sublimate in the printer. ‘Bubble jet’ printers from manufactures such as HP, Canon and Lexmark heat the ink in the head to force droplets onto the paper. This means all these types of printers are unsuitable for use with sublimation inks that react to heat.

**DYE SUBLIMATION INKS**

Patents exist for European and US desk top printing of Sublimation inks. These patented inks are available in slightly different forms and brands within Europe but are all offered at approximately the same market price.

**SUBLIMATION PAPER**

If you used low cost photocopy paper too much of the ink would absorb into the paper itself and not enough would be ‘Sublimated’ into the material. Sublimation paper has a coating on the surface which effectively means the ink sits on the paper without ever thoroughly drying. Three types of paper are available, Economy Paper, Ricoh Sublimation Paper and Special Paper. The Special paper will work with all sublimation materials providing the best colour release and is essential with plastics as the thicker coating prevents sticking to warm sublimated plastic. The Economy grade is cheaper but still can be used on a wide range of materials and the Ricoh paper is excellent on all materials except soft plastics.

**HEAT PRESS, MUG PRESS AND OVEN**

The constant even pressure and variable temperature control make a Sublimation Heat Press essential. Obviously mugs will not fit in a flat bed press so a special Mug Press can be purchased or alternatively the printed image can be adhered to the mug which is then placed in a domestic oven for 10 minutes.

**COMBINING TECHNOLOGIES**

Sublimation Printing can be used in conjunction with other manufacturing processes. For example, clear or white PVC sheet can be sublimated and then allowed to cool in the flat. The printed plastic can then be laboratory formed. A video resource is available from Mega which shows a vacuum forming tool being made on a laser cutter and the clear PVC being sublimated before it is vacuum formed to produce a colourful three dimensional light switch cover for a child’s room. Another example of sublimation printing and thermo-forming is with foam board. This can be printed and when it is still warm from the press formed into shapes using a simple press forming tool.

**WHO IS USING SUBLIMATION?**

In Schools and Colleges Sublimation is suitable for use in a wide range of areas. These include Graphic Products; Engineering; Product Design; Food Technology; Art and Design; Textiles and Enterprise.

In industry the system is being used by those making signs and front panels and companies involved in the printware and promotional business.

**COSTS**

Starter Kits containing a digital heat press, Ricoh printer, papers, inks, and heat tapes are available. Printing costs are difficult to equate as it depends on how often the system is used and therefore how many cleaning cycles and head clean the printer performs. Best estimates however for a flood coat A4 image are around 50p for both ink and paper.

**HOW RELIABLE ARE THE PRINT SYSTEMS?**

The new Ricoh printers used in conjunction with SubliJet sublimation inks are efficient and reliable. Tests have shown that even if the system is to be left dormant for several months a nozzle check and head clean is all that is needed for trouble free use.
Sublimation Starter Kit A4 (RICOH) with Digital Cadet Swing Heat Press

Consisting of:
- Ricoh SG3110DN A4 Printer for Sublimation: Sublijet R Cartridges, Black (49 ml), Cyan (29 ml), Yellow (29 ml), Magenta (29 ml)
- 28 cm x 38 cm Apollo Heat Press with in-built timer
- 50 sheets of ‘Special’ Sublimation Paper
- 110 sheets of Ricoh A4 paper and 2 rolls of Heat Tape
- Colour of Heat Press may vary

Sublimation Starter Kit A4 (RICOH) with Digital Apollo Clam Heat Press

Consisting of:
- Ricoh SG3110DN A4 Printer for Sublimation: Sublijet R Cartridges, Black (49 ml), Cyan (29 ml), Yellow (29 ml), Magenta (29 ml)
- 28 cm x 38 cm Apollo Heat Press with in-built timer
- 50 sheets of ‘Special’ Sublimation Paper
- 110 sheets of Ricoh A4 paper and 2 rolls of Heat Tape
- Colour of Heat Press may vary

Sublimation Starter Kit A4 (RICOH) with Digital Titan Clam Heat Press

Consisting of:
- Ricoh SG7100DN A3 Printer for Sublimation: Sublijet R Cartridges, Black (49 ml), Cyan (29 ml), Yellow (29 ml), Magenta (29 ml)
- 40 cm x 50 cm Apollo Heat Press with in-built timer
- 50 sheets of ‘Special’ Sublimation Paper
- 110 sheets of Ricoh A3 paper and 2 rolls of Heat Tape
- Sublimation Materials Starter Pack
- Colour of Heat Press may vary

Mug Printing Kit complete with a Mug Press

This kit is supplied with a Mug Press, no oven required.
Consisting of:
- Ricoh A4 Printer
- 4 x Sublijet Print Ink Sublijet R Cartridges, Black (49 ml), Cyan (29 ml), Yellow (29 ml), Magenta (29 ml)
- Free of charge download of Power Driver software
- 110 sheets of A4 Sublimation Paper for the Ricoh
- 36 Durham Sublimation Mugs
- 2 x rolls of 15m Heat Tape

Sublimation Starter Kit A3 (RICOH) with Digital Titan Clam Heat Press

Consisting of:
- Ricoh SG7100DN A3 Printer for Sublimation: Sublijet R Cartridges, Black (49 ml), Cyan (29 ml), Yellow (29 ml), Magenta (29 ml)
- 40 cm x 50 cm Heat Press with in-built timer
- 50 sheets of ‘Special’ Sublimation Paper
- 110 sheets of Ricoh A3 paper and 2 rolls of Heat Tape
- Sublimation Materials Starter Pack
- Colour of Heat Press may vary

Sublimation Starter Kit A3 (RICOH) with Digital Swing Away Heat Press

Consisting of:
- Ricoh SG7100DN A3 Printer for Sublimation: Sublijet R Sublijet R Cartridges, Black (49 ml), Cyan (29 ml), Yellow (29 ml), Magenta (29 ml)
- 38 cm x 50 cm Swing Away Heat Press with in-built timer
- 50 sheets of ‘Special’ Sublimation Paper
- 110 sheets of Ricoh A3 paper and 2 rolls of Heat Tape
- Sublimation Materials Starter Pack

Sublimation Starter Kit A3 (RICOH) with Digital Apollo Clam Heat Press

Consisting of:
- Ricoh SG7100DN A3 Printer for Sublimation: Sublijet R Cartridges, Black (49 ml), Cyan (29 ml), Yellow (29 ml), Magenta (29 ml)
- 40 cm x 50 cm Apollo Heat Press with in-built timer
- 50 sheets of ‘Special’ Sublimation Paper
- 110 sheets of Ricoh A3 paper and 2 rolls of Heat Tape
- Sublimation Materials Starter Pack
- Colour of Heat Press may vary

Sublimation Starter Kit A3 (RICOH) with Digital Titan Clam Heat Press

Consisting of:
- Ricoh SG7100DN A3 Printer for Sublimation: Sublijet R Cartridges, Black (49 ml), Cyan (29 ml), Yellow (29 ml), Magenta (29 ml)
- 40 cm x 50 cm Heat Press with in-built timer
- 50 sheets of ‘Special’ Sublimation Paper
- 110 sheets of Ricoh A3 paper and 2 rolls of Heat Tape
- Sublimation Materials Starter Pack

Mug Press

The Mug Press sublimates polyester coated sublimation mugs of diameter 72 mm or 80 mm. Both heating elements are included and can be changed within seconds.

- Digital time steering: 1-999 seconds
- Digital temperature setting: 0–210°C
- Power: 350 watt, 230 VAC, 2 A

DM9000 and DM9001 Shears

Two powerful, cost effective, shears which have the ability to accurately cut plastics up to 2.00 mm thick and various aluminium materials up to 1.5 mm. For positional accuracy the cutting bed is fitted with a rule which is recessed to assist in securing the PCB or sheeting whilst cutting is in progress.

- The DM9000 has a cutting capacity of 203 mm (8") and is extremely compact with an overall height of only 575 mm and a footprint of 335 mm x 140 mm. It has a cutting bed of 110 mm wide from the blade although wider material can be cut.
- The larger DM9001 will cut materials up to 305 mm (12") and has a height of 670 mm and a footprint of 440 mm x 245 mm. It has a larger cutting bed 225 mm wide from the blade although once again wider material can be cut.

ES420 Corner Rounder

An inexpensive invaluable tool to meet the demand for a quick corner rounding facility for plastic/metal labels and front panels. It is ideal for finishing off labels and signs produced with sublimation plastic and metal. The table is effectively split into two halves enabling a choice of a 4 mm or 6 mm radius depending on which side of the table you use. Overall height with handle upright 8" (205 mm) and weight 1.2Kg.

A4 Ricoh SG3110DN with SubliJet®-R inks

The new A4 Ricoh SG3110DN for SubliJet®-R sublimation printing system is the perfect choice for education establishments and for a new business looking to generate big profits on a small budget. SubliJet®-R is a specially formulated sublimation ink for the Ricoh platform that produces brilliant, high-resolution colour quickly and efficiently. The printer takes a 49 ml cartridge for the black and 29 ml for the cyan, magenta and yellow. Paired with our high quality Ricoh sublimation paper, the SubliJet®-R cartridge ink produces vibrant, permanent images that are unmatched by any other form of digital printing.

A new ink pump also helps reduce running costs. All inkjet printers must maintain negative print head pressure to keep the ink in the head when not printing. Legacy inkjet printers have accomplished this with a single-directional pump that periodically ejects ink into the waste tank. The Ricoh SG 3110DN features a New Dual-Directional Pump which maintains negative head pressure by pumping ink back toward the cartridge thus saving ink by reducing the need for ejection while the printer is not in use. Capable of producing up to 144 colour prints per hour, the Ricoh SG3110 DN easily ranks as the fastest entry-level sublimation printer on the market. The Ricoh SG3110 DN loaded with SubliJet®-R ink includes the SubliJet®-R PowerDriver® print driver and colour management software. The professional-grade system handles A4 transfer media and comes standard with a high-capacity 250-sheet paper tray.

A cost per copy information sheet is available on our resources page. Advantages of this new platform include:

- Digital Time and Temperature Readout
- New print head – delivers superior print quality and speed
- New dual-directional ink pump – cleans nozzles with minimal ejection of ink
- 15%+ increased yield for lower image cost
- Choice among two colour management options - PowerDriver for Windows and MacProfile for Mac OS

71-2189 Ricoh A4 SG3110DN with 4 x Sublimation Carts

A3 Ricoh SG7100DN with SubliJet®-R inks

The A3 Ricoh SG7100DN for SubliJet®-R sublimation printing system is the printer of choice for anyone needing A3 and for education establishments and businesses that require the highest level of reliability and durability to meet their production demands. SubliJet®-R is a specially formulated sublimation ink for the Ricoh platform that produces brilliant, high-resolution colour quickly and efficiently. Paired with our high quality Ricoh sublimation paper and SubliJet®-R cartridges it produces vibrant, permanent images that are unmatched by any other form of digital printing. Capable of printing large images with high speed and high quality settings, the Ricoh SG7100DN is the perfect sublimation printer when used with SubliJet®-R ink and the free SubliJet®-R PowerDriver® print driver and colour management software. The printer comes standard with a high-capacity 250-sheet paper tray. The A3 SG7100DN also has very advanced automatic in-built maintenance routines which use less ink keeping the printer trouble free and ready to use.

The SG7100DN will initially be offered with standard capacity cartridges. These are 29 ml for Cyan, Magenta and Yellow and 49 ml for the Black. They are the same cartridges that fit the A4 SG3110. Larger capacity SubliJet-R cartridges are due by the end of May 2013. This new printer will be available early April 2013. ICC colour profiles will then be available with the PowerDriver due on 17th April 2013 which will be our proposed launch date for this machine.

Image cost information is available on our resources page.

76-9063 Ricoh A3 SG7100DN Printer with 4 x Carts

Sublimation Cartridge Inks

High Capacity Cartridge Inks for the Ricoh GX7000 Printer.

- 71-0305 Sublimation Cart for Ricoh GX7000 & 5050N Black 60 ml - SubliJet
- 71-0306 Sublimation Cart for Ricoh GX7000 & 5050N Cyan 60 ml - SubliJet
- 71-0307 Sublimation Cart for Ricoh GX7000 & 5050N Magenta 60 ml - SubliJet
- 71-0308 Sublimation Cart for Ricoh Gxe7700N Magenta 60 ml - SubliJet
- 76-9019-2 Ink Collection Unit for Ricoh GX7000

- 71-0310 Sublimation Cart for Ricoh Gxe3300 & Gxe7700N Black 29 ml - SubliJet
- 71-0311 Sublimation Cart for Ricoh Gxe3300 & Gxe7700N Cyan 29ml - SubliJet
- 71-0312 Sublimation Cart for Ricoh Gxe3300 & Gxe7700N Yellow 29 ml - SubliJet
- 71-0313 Sublimation Cart for Ricoh Gxe3300 & Gxe7700N Magenta 29 ml - SubliJet
- 76-9019-3 Ink Collection Unit for Ricoh Gxe3300 & Gxe7700N

High Capacity Cartridge Inks for the Ricoh GX7700N Printer.

- 71-0315 Sublimation Cart for Ricoh Gxe7700N Black 60 ml - SubliJet
- 71-0316 Sublimation Cart for Ricoh Gxe7700N Cyan 60 ml - SubliJet
- 71-0317 Sublimation Cart for Ricoh Gxe7700N Yellow 60 ml - SubliJet
- 71-0318 Sublimation Cart for Ricoh Gxe7700N Magenta 60 ml - SubliJet
- 76-9019-3 Ink Collection Unit for Ricoh Gxe3300 & Gxe7700N

Sublimation Cartridge Inks

- 71-0320 Sublimation Cart for Ricoh SG3110DN & SG7100 Black 49 ml - SubliJet
- 71-0321 Sublimation Cart for Ricoh SG3110DN & SG7100 Cyan 29 ml - SubliJet
- 71-0322 Sublimation Cart for Ricoh SG3110DN & SG7100 Yellow 29 ml - SubliJet

- 76-9019-5 INK COLLECTION UNIT RICOH SG3110
MEGA Economy Sublimation Paper

Our lowest cost paper which can be used with a wide range of materials except ‘soft’ plastics. Exact materials compatibility is shown on our ‘Sample Times Sheet’. Print on the whiter of the two sides.

71-0408 A4 Economy 210 mm x 297 mm (200 sheets)
71-0409 A3 Economy 297 mm x 420 mm (200 sheets)

MEGA Sublimation Paper for Ricoh Printer

An excellent sublimation paper exclusively formulated for Ricoh printers. It can be used on a wide range of materials. Note: We still recommend the ‘Special Paper’ for soft plastics.

71-0423 A4 Sublimation paper for Ricoh 210 mm x 297 mm (110 sheets)
71-0424 A3 Sublimation paper for Ricoh 297 mm x 420 mm (110 sheets)

MEGA Special Sublimation Paper

Our slowest drying and highest ink release paper. It is excellent to use with ‘soft’ plastics, as the paper will not stick to the printed product. As the ink is so slow drying, it should be left before heat pressing and designs with large areas of black are sometimes difficult to achieve with the Ricoh printers. Print on the coated side without the watermarks.

71-0419 A4 Special Paper (200 sheets)
71-0420 A3 Special Paper (200 sheets)
71-0405 Special Paper Rolls 95 gms. 420 mm x 40 M

High Temperature Tape

- Self-adhesive tape used to secure paper and substrates in the heat press

70-7003 10 mm Blue Heat Tape (16 M roll)

Over-Laminating Films & Accessories
(for extra external UV protection)

800-600 20” x 12” UV Transparent Blocking Film (5 sheet pk)
800-601 20” x 12” UV Matt Blocking Film (5 sheet pk)
800-308 Vinyl Application Fluid 500 ml makes 1 litre
800-143 Plastic Applicator
800-305 Application Tray

Digi Coat Clear Sublimation Coating

A simple solution for creating unique and innovative substrates

- In order to transfer an image to any product or surface using sublimation ink, that product or surface must be ‘sublimation receptive’
- Natural and untreated surfaces like wood, metal, ceramic, leather, stone, glass and other items pose a real challenge to the digital decorator
- To accept a sublimation transfer, these products must be treated with a polymer coating that when cured allows the sublimation inks to transfer onto the product

71-0067 Digi Coat Clear Sublimation Coating

Digi Coat Opaque White Coating

For printing on dark or black substrates

- In order to prepare a dark surface for sublimation imprinting, the item must first receive a white base layer before application of Digi Coat Clear sublimation coating
- The white layer will give opacity to the image. However, since heat is used in the transfer process, the white base coat needs to be able to withstand 200°C heat without peeling or turning yellow
- Digi Coat White has been specially fabricated to work with Digi Coat Clear
- It is simple to apply, may be applied to thousands of substrate materials, and will not peel or discolour under heat

71-0068 Digi Coat Opaque White Coating (Must be used with 71-0067)

Digi Coat Adhesion Promoter

Helps you achieve superior adhesion to surfaces

- The use of Digi Coat pre-treatment on glass, ceramic and polished metal surfaces prior to coating, improves the overall durability, and chemical and water resistance of the applied Digi Coat coatings
- Failure to use the pre-treatment can result in delamination of the applied coating when exposed to wet conditions, especially on glass, glazed ceramic and polished metal surfaces

71-0069 Digi Coat Adhesion Promoter

Digi Coat UV Protection Coating

Protects your designs from the damaging effects of sunlight

- Digi Coat UV Protect is the first product designed for use in the sublimation transfer market to protect images from ultraviolet light fade
- Digi Coat UV Protect contains two types of UV Inhibitors which both absorb and deflect UV light, giving the maximum possible protection to sublimation inks

71-0070 Digi Coat UV Protection Coating
Aluminium Coated Sheets (10 sheets)

- Polyester coated aluminium in various colours and finishes
- White finish
  - 71-3001 24” x 12” x 0.5 mm
- Satin (matte) finish
  - 71-3002 24” x 12” x 0.5 mm
- Mirror finish
  - 71-3003 24” x 12” x 0.5 mm
  - 71-3004 24” x 12” x 0.5 mm
  - 71-3005 24” x 12” x 0.5 mm
  - 71-3006 24” x 12” x 0.5 mm
  - 71-3007 24” x 12” x 0.5 mm

Chef’s Apron

- White polyester chef or cook’s apron which is ready to print any sublimation image
- White seams and ties at the back

- 71-0025 White Sublimation Chef’s Apron Size: 70 cm x 95 cm

Baby Bibs

- Three colours available, blue, pink, yellow
- The front is made of “tricot” fabric for excellent printing results
- The back is constructed of soft towelling
- Velcro fastener

- 71-0180 Baby Bib. Velcro Fastener. Light Blue Edging
- 71-0181 Baby Bib. Velcro Fastener. Pink Edging
- 71-0182 Baby Bib. Velcro Fastener. Yellow Edging

Baseball Cap

White 5-panel base cap made of 100% microfiber
- Seamless printable front surface
- Velcro fastener on back, 4 stitched air holes

- 71-0086 Sublimation Baseball Cap

Shopping Bag

- Shopping bag made of polyester fabric

- 71-0039 Shopping Bag Size: 45 cm x 41 cm

Sublimation Sports Bag

- Drawstring sports bag made from hard wearing sublimation printable material
- Size: 450 mm x 335 mm

- 71-4016 Sublimation Sports Drawstring Sports Bag

Plastic Name Tags / Badges

- Plastic name tags, thickness 2 mm
- Available in either rectangle or oval

- 71-0055 Plastic Name Tags 25 mm x 75 mm
- 71-0056 Plastic Name Tags 32 mm x 75 mm (oval)

Aluminium Business Cards

- Mirror, Brushed or White Aluminium
- 54mm x 85mm x 0.5mm
- Use the white cards for coloured images
- All cards deburred

- 71-0177 Aluminium Business Card. Brushed Silver 54 mm x 85 mm x 0.5 mm
- 71-0178 Aluminium Business Card. Mirror Silver 54 mm x 85 mm x 0.5 mm
- 71-0179 Aluminium Business Card. Glossy White 54 mm x 85 mm x 0.5 mm

Plastic Business Cards (packs of 100)

- Ideal for producing your own four colour visiting or ID cards.
- As with all soft plastic materials we recommend our ‘Special Sublimation Paper’ is used as the thick coating on the paper will not stick to the heated plastic.

- 71-3017 Plastic Business Cards (white) 82 mm x 56 mm
- 71-3018 Plastic ID Cards (white) 82 mm x 56 mm (Landscape)
  - Slotted plastic cards to make your own ID cards. Order fastening straps separately (see below)
- 71-3019 Plastic ID Cards (white) 82 mm x 56 mm (Portrait)
  - Translucent Business Cards 85 mm x 53 mm
  - Light translucent cards for visiting or ID cards

Badge Mounting

- 71-2094 38 mm Slim-line White Self-Adhesive Pin (100 per pack)
- 71-2095 Strap Clip (50 per pack)

Canvas Material (per linear metre)

- Ideal for producing coloured ‘oil painting style’ canvas prints
- Also used to make other textile products such as handbags

- 71-0411 500 gsm Artist Canvas (1.70 m x 1 lineal metre)
- 71-0412 300 gsm Artist Canvas (1.64 m x 1 lineal metre)

Car Sunshade

- A blank white polyester Car Sun Shade, 38x 44cm, suitable for sublimation printing
- Supplied with two suction cups

- 71-0026 Car Sunshade 38 mm x 44 cm

Email: sales@megauk.com  www.megauk.com/sublimation
**CD Bag / Case**
- Zipped bag with carrying loop to hold 20 CDs or DVDs
- White printable panel on both sides
- 150 mm x 50 mm
- The oval silicone former is recommended to add support when pressing
  - 71-0042 CD Bag 150 mm x 50 mm
  - 71-0042-F CD Bag Silicone Former

**Clipboards**
- Hardboard clipboard, available in two sizes
- Printable on both sides. 3 mm thick with rounded corners
- Colour white
- Please note additional tool required for clip assembling
  - 71-0065 Clipboard 315 mm x 230 mm x 3mm
  - 71-0066 Clipboard 150 mm x 230 mm x 3mm
  - 71-0066-1 Clip Board Fastening Tool

**Sublimation Wall Clock**
- An attractive hanging wall clock of your own design. All clock movements and mechanisms included
  - 71-4020 Sublimation Wall Clock 19cm Circular
  - 71-4025 Sublimation Wall Clock 19cm Square

**Sublimation White Card**
- A special white glossy polyester coated card for various applications including packaging projects
- Sheet size 700 mm x 500 mm nominal
  - 71-0100 White Sublimation Card 700 mm x 500 mm

**Door Hanger**
- High quality white gloss door hanger
- 100 mm x 230 mm x 2 mm
- It can be printed on both sides
  - 71-0058 Door Hanger 100 mm x 230 mm x 2 mm

**Fibreglass Sheets**
- An excellent rigid self-supporting sign and panel material
- It is also suitable for imaging and CNC routing in various school projects
  - 71-2000-6 300 mm x 625 mm x 2.0 mm White Fibreglass
  - 71-2000-A4 A4 sheet 2.0 mm White Fibreglass
  - 71-2000-A3 A3 sheet 2.0 mm White Fibreglass

**Flip Flops**
- Complete kit available of 10 pairs of assorted sizes and strap tool
  - 71-0083 Flip-Flop Starter Kit 10 x Assort Sizes, 1 x Plier
  - 71-0083-S Flip-Flop Small Size 35-40
  - 71-0093-M Flip-Flop Medium Size 40-42
  - 71-0093-L Flip-Flop Large Size 42-44
  - 71-0093-XL Flip-Flop X Large Size 44-46

**Sublimation Flock Material**
- Flock is used to add four colour images to coloured textiles
- An image is ‘sublimated’ to a piece of flock which is then heat pressed into the coloured textile
  - 71-0410 A4 Sublimation Flock (10 sheets)

**Foam Board**
- A White Foam Board which is ideal for sublimation printing
- After heat pressing a flat heavy item is placed on the sheet as it cools to ensure it stays flat. Alternatively when still warm the printed sheet can be thermo formed in a simple press forming tool. The illustrated MDF press forming tool is not supplied
- Remove protective film before heat pressing
- Sheet size: 12” x 24” nominal thickness 3 mm
  - 71-2122 White Sublimation Foam Board 12” x 24” x 3 mm

**Glass Cleaning Cloths**
- Soft polyester glass (spectacle) cleaning cloths
- Ideal to print with any sublimation image as a promotional item or a gift
- Supplied in packs of 10 in two different sizes
  - 71-0027 Glass cleaning cloths 10 cm x 15 cm (10pk)
  - 71-0028 Glass cleaning cloths 15 cm x 18 cm (10pk)

**Handbag Holder**
- Metal holder with printable aluminium plate
- 25mm diameter circle
  - 71-0172 Handbag Holder. 32 mm Circle. White Printable Plate

**Sublimation Cardboard Jigsaw Puzzles**
- High gloss, pre-cut, sublimation printable Jigsaw Puzzles
- Make your own design jigsaws
  - 71-4030 Sublimation Jigsaw 30 pieces 29.7 cm x 21 cm (A4)
  - 71-4032 Sublimation Jigsaw 96 pieces 29.7 cm x 21 cm (A4)
  - 71-4034 Sublimation Jigsaw 60 pieces 29.7 cm x 21 cm (A4)
**Metal Key Tags**
- Key-ring pendant with a recess for a small printable aluminium plates (please order separately)
- Size 28 mm x 42 mm. Glossy finish

71-0050 Metal Key Tags Glossy
71-0050-1 Small Aluminium plates for above 21 mm x 33 mm

**Lap Top Cover**
- Made of extra thick neoprene for full protection with zipper
- Both sides printable
- 330 mm x 420 mm (larger than illustrated)

71-0098 Laptop Cover with zip. 330 mm x 420 mm

**iPad2 & iPad3 Sleeve**
- Silver iPad sleeve
- Suitable for iPad2 & 3, even if a plastic cover is fitted
- Both sides printable

71-0097 iPad & 3 Sleeve 210 mm x 270 mm

**Luggage Strap**
- Solid luggage strap with robust fastening clip
- Fits circumference to 170 cm, width 5 cm
- Colour: Silver-Grey

71-0171 Luggage Strap

**Luggage Tags**
- White Plastic Luggage Tags
- Both sides printable
- 2mm thick
- Silicone loop tape available

71-0099 Luggage Tag. 44 mm x 88 mm x 2 mm
71-0175 Luggage Tag. 75 mm x 140 mm x 2 mm
71-0170-10 Luggage Tag Silicon Loop Tape 10 Per Pack

**Sublimation Magnetics**
- Pre-cut white magnetic sublimation materials for various applications including the manufacture of fridge magnets

71-0091 Sublimation Magnetic Material 50 mm x 60 mm
71-0092 Sublimation Magnetic Material 100 mm x 100 mm

**Lap Top Cover**
- Made of extra thick neoprene for full protection with zipper
- Both sides printable
- 330 mm x 420 mm (larger than illustrated)

71-0098 Laptop Cover with zip. 330 mm x 420 mm

**Luggage Strap**
- Solid luggage strap with robust fastening clip
- Fits circumference to 170 cm, width 5 cm
- Colour: Silver-Grey

71-0171 Luggage Strap

**Savings Box**
- A slotted ceramic savings box with a removable rubber stopper in the bottom. It can be printed in a mug press or oven
- Height 95 mm x 80 mm dia
- Weight: 325 gms

71-0061 Ceramic Savings Box

**Mini Purse**
- Ideal for coins and jewellery
- Diameter 90 mm, height 30 mm
- The round silicone former is recommended to add support when pressing

71-0094 Mini Change Purse with zip. Round 90 mm
71-0094-F Mini Change Purse Silicon Former

**Mouse Mats (packs of 10)**
- Sizes of Mouse Mats are nominal
- Textile topped
- Natural rubber

### Sublimicrylic
Sublimicrylic is a revolutionary new product that brings full colour imaging potential of acrylic to the sublimation user without the need for expensive investment in hardware. Sublimicrylic can be decorated easily by using a standard heat press and sublimation paper to produce vivid colour and fantastic detail onto great looking acrylic gift products.

- Available in range of high quality crystal clear awards suitable for anything from athletics awards or high end corporate recognition systems.

<table>
<thead>
<tr>
<th>Code</th>

### Tee Shirts and Polos Shirts

- These 100% polyester garments are designed to provide strong vibrant sublimated images
- The fabric allows a permanent image to be printed that will not fade even with machine washing at 60°C
- The 210 gsm fabric allows the image to be stretched and it also has superb moisture management performance and has the feel and look of a soft cotton garment

#### Mens

- 71-4002 | Sublimation Adult T Shirt | Small |
- 71-4003 | Sublimation Adult T Shirt | Medium |
- 71-4004 | Sublimation Adult T Shirt | Large |
- 71-4005 | Sublimation Adult T Shirt | Extra Large |

#### Ladies V Neck T-Shirt

- 71-4063 | Ladies V Neck T Shirt | Size 8-10 |
- 71-4064 | Ladies V Neck T Shirt | Size 12-14 |
- 71-4065 | Ladies V Neck T Shirt | Size 16-18 |
- 71-4066 | Ladies V Neck T Shirt | Size 20-22 |

#### Adult Polos

- 71-4011 | Sublimation Polo Shirt | Small |
- 71-4012 | Sublimation Polo Shirt | Medium |
- 71-4013 | Sublimation Polo Shirt | Large |
- 71-4014 | Sublimation Polo Shirt | Extra Large |

#### Child’s T-Shirts

- These 100% polyester garments are designed to provide strong vibrant sublimated images
- The fabric allows a permanent image to be printed that will not fade even with machine washing at 60°C
- The 210 gsm fabric allows the image to be stretched and it also has superb moisture management performance and has the feel and look of a soft cotton garment

- 71-4067 | Child T Shirt | 3-4 Yr Old |
- 71-4068 | Child T Shirt | 5-6 Yr Old |
- 71-4069 | Child T Shirt | 7-8 Yr Old |
- 71-4070 | Child T Shirt | 9-10 Yr Old |
- 71-4071 | Child T Shirt | 11-12 Yr Old |
- 71-4072 | Child T Shirt | 13-14 Yr Old |

#### Mini-Sampler Tee Shirts

- Soft Polyester Cotton Sublimation ‘sampler’ tee shirts which are 6” across
- Ideal for Promotional use

- 71-4050 | Sublimation “Mini Sampler” T Shirt |

### Aluminium Water Bottles

- Aluminium water bottles, supplied as below with both drink lid options per bottle, available in both white and silver
- Capacity 500 ml. Hand-wash recommended

- 71-0059 | Aluminium Water Bottle | White |
- 71-0060 | Aluminium Water Bottle | Silver |
Medium Wallet

- Artificial leather wallet with printable cover 135 mm x 72 mm
- 5 credit card pockets with purse and clear ID window

71-0044  Black Medium Wallet

Textile Wallet

- Textile wallet with a printable cover of 117 mm x 75 mm
- 4 card pockets with purse
- Available in either black or denim finish

71-0045  Textile Wallet Black
71-0046  Textile Wallet Jeans

Oven Glove

- For oven or barbeque
- 17 cm x 27 cm

71-0183  Oven Glove for Oven or Barbeque

Subliglass

NEW sublimation photo presentation glass products

Subliglass is a revolutionary sublimation photo gift product that enables you to display images in a contemporary style. Perfect for commemoratives, promotional products or photo gifts awards and the 11” x 14” wall mounted variant is a unique signing product. Subliglass can be processed with standard dye sublimation methods:

- Bevelled Edge High Quality Glass
- Can Be Displayed Portrait or Landscape
- 5mm Thick Glass
- Sublimation Ready
- Includes Peg Stands or wall mount pegs (11” x 14”)

71-0184  Subliglass Small Portrait/Landscape 5 x 7 inch with 1 Peg
71-0185  Subliglass Medium Portrait 8 x 10 inch with 2 Pegs
71-0186  Subliglass Medium Landscape 8 x 10 inch with 2 Pegs
71-0187  Subliglass Large Wall Mount 11 x 14 inch with 4 Pegs

SUBLIMINATION PRINTING HAS NEVER BEEN SO EASY!

Print your own four colour images on:
- Fibre Glass
- Jigsaws
- Mugs
- Coasters
- Coated Metals
- Textiles Canvas
- Ceramic Tiles
- T-Shirts
- Plastics
- Bags
- Mouse Mats
- Photo Mugs
- Foam Board
- Place Mats
- CNC Engraving Laminates
- PVC Vacuum Forming Sheets

1. Lay your printed design onto blank substrate
2. Heat transfer
3. Remove printed substrate

This simple cost effective system is ideal for the in-house manufacture of industrial signs, nameplates, labels and general signage on various substrates, in full colour. It is also ideal for promotional items and educational use for printing mouse mats, coasters, CNC laminates, vacuum forming plastics, Foamex and textiles.

Ideal for ‘one-off’ to small production quantities. The Key to the process are special inks and substrates that enable your printed design to be heat transferred into the surface of the substrate material. With the image in the surface of the substrate – no over-lamination is necessary.

For more information on this and other systems please contact us:
